**Abstract**

Children's literature holds a significant place in Tamil literature. In this context, the article titled *"Children's Literary Perspective: A Study"* is considered highly important. In particular, children's literature has flourished from the Sangam period to contemporary literature, presenting various aspects of childhood, including upbringing, abilities, speech, motivation, and overall development. These literary works provide valuable insights

into the lives, activities, thoughts, and growth of children across different periods. Thus, the study of children's literature helps to understand the changing perspectives and contributions of children in Tamil literary traditions.

**Key Words:** Child-rearing, Functional ability, Speech, Language, and Literary perspective
